

Danish Limousine cattle auction

March 23 2024 at 12.30 PM

Adress: Markedsvej 4, 6650 Brørup

Limousine

Who selects the cattle for auction?

Bent Jessen

Breeder of "Risvang" Limousine near Brørup. The herd consists of 16 cows. Bent is married to Susanne who has the children Asker and Maja. Bents children are Allan, Nina and Camilla.

Simon Smidt

Breeder of "Krogens" Limousine near Ferritslev on Fyn. The herd consists of 7 cows. Simon is married to Michelle and with her he has the two boys Phillip and Victor.

Jakob Ravn

Breeder of "Birkely" Limousine near Hammel. The herd consists of 20 cows. Jakob is married to Pia and has the girls Anne-Sofie and Karoline.

Camilla Jessen

Member of the board in the Danish Limousine association and lives near Brørup. Helps her dad Bent with the herd at Risvang Limousine. Lives with Alexander and their daughter Karen.

Tommy Jessing

Breeder of "Bøgely" Limousine near Brørup. The herd consists of 12 cows. Tommy lives with Lianne and has the daughters Julie and Mathilde.

Contact the committee

Do you have questions, praise or criticism, please feel free to contact the committee at our email

auktion@dansklimousine.dk

Welcome to this years Limousine cattle auction

At the same location as last year will the auction be held. All breeders from Denmark has until December 2023 had the possibility to submit their best cattle for this years auction for the committee to select. 60 animals were submitted distributed on 24 herds. Again this year, were the quality of the animals very good.

The committee has therefore this year been able to select animals so there is something for every breeder interested. There are both bulls with or without horns (both hetro- and homozygous), heifers and cows. If you are looking for a new subject for exhibition on the future animal shows is this also a possibility. You will find it all here.

Everyone is welcome and we are hoping for a very good day.

*The best greetings from the auction
committee*

Regler & betingelser

Registration

All active members of the Danish Limousine Association can register animals for the auction. Danish Limousine Association reserves the right to reject registered animals.

Agreements

The seller has entered into a fixed agreement regarding the minimum price with the auction committee. Home bids or purchases that are considered by the auction committee to be a home bid are invoiced and settled as an ordinary purchase.

Buyers

The auction is open to all buyers, regardless of membership of the Danish Limousine Association.

Fee

The seller pays a registration fee of DKK 1,500 per animals. The buyer pays DKK 800 in fees + 3 percent of the bid sum.

In general

The seller is responsible for animals sold at the auction being real in all respects. The animals must be good breeding animals with an exterior above the breed average. They must be habituated and easy to handle. On the day of the auction, all animals must be 10 months old as a starting point. However, the auction committee can select younger individuals that are specially found interesting due to pedigree, horn status, indices or other values, which make these animals extremely interesting at an Elite animal auction. All animals must be weighed at birth, 200 days and 365 days. The auction is held according to current rules for the sale of animals, so force majeure is reserved if it becomes necessary to cancel the auction or to hold it in another relevant way.

Pedigree keeping

Bulls must be parentage determined and registered in the studbook. Female animals must be registered in the stud book.

Pregnant animals

Has been examined and declared pregnant by a relevant professional

Semen rights

Seed rights: Accrued to the buyer, unless otherwise agreed in writing and officially announced before the auction. Bulls that have been approved for the Danish Limousine Association's breeding program may not be inseminated again without an agreement with the Danish Limousine Association.

Responsibility

The responsibility for the animal lies with the seller until the animal leaves his address for transport to the new owner - however a maximum of 7 working days. Thereafter, the animal is the buyer's responsibility.

Insurance

The Danish Limousine Association has not taken out insurance on the animals.

Transportation

The transport is arranged by the auction committee and the cost is invoiced according to the following key:

Seller's transport costs: DKK. 700,-

Buyer's transport costs: DKK. NOK 1,400 (for bridge-fixed islands)

Export of animals

The buyer pays fees and transport as for sales within Denmark.

Buyer pays all costs for quarantine, housing, care, feeding, veterinary costs. The buyer is responsible for arranging and paying for transport from the quarantine barn to destination abroad. The Danish Limousine Association can be helpful in appointing a quarantine stable. Sellers of animals traded for export must expect a longer turnaround time. For settlement of animals sold for export, a longer handling time and separate housing period can be expected.

Arbitration

Any disagreement and dispute regarding animals traded at the auction will be settled by arbitration. The following procedure for appointing an arbitrator has been agreed: Each party appoints an arbitrator. When one party has appointed its arbitrator and given notice thereof to the other party, and the latter has not appointed its own within 7 days thereafter, the first party is entitled to also appoint the second arbitrator. The arbitrators may appoint a convenor. If no agreement can be reached, the arbitrator is appointed by the local civil judge in the owner's jurisdiction. Each of the parties is only entitled twice in writing to submit its comments, and has only 14 days each time to make them, unless the arbitrators grant permission for a longer period. The arbitrator also determines its own course of business, including what additional evidence it may wish to provide, as well as whether an oral hearing must be scheduled. When the arbitrator has accepted the case for a ruling, it is obliged to deliver the ruling within four weeks thereafter. The arbitration determines in its order, who must pay the costs associated with the processing of the case in question. In this connection, account is also taken of who loses the case in whole or in part. The decision rendered is final in the case and cannot therefore be brought before the ordinary courts.

Catalog no. 1

Name: Lindegården Roset

Seller: Peter & Allan Kragh Madsen, Gl. Landevej 10, 8940 Randers SV

CKR-number: 89195-00176

Birthday: 29.11.2020

200 days weight: 320 kg

365 days weight: 527 kg

S-index: 104

Notes:

Lindegården Roset

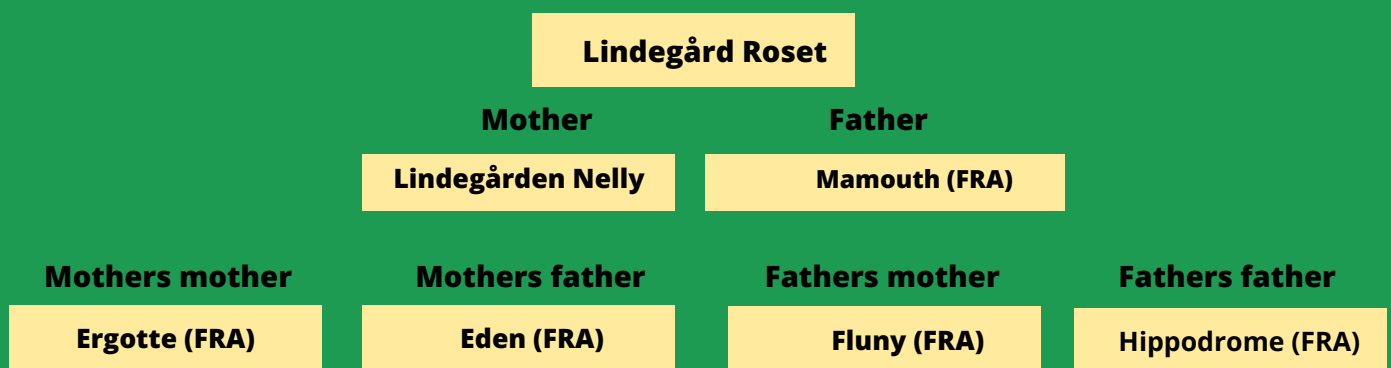

Lindegården Roset is a 1st calf cow of large mix type.

In terms of exterior, she is an obvious exhibition subject. She is fine-limbed, long and strong in the back and she has a really good depth in the body. The cross is wide and very well shaped.

She is bred from the french imported bull Mamouth, which is imported from the herd GAEC Pimpin. The dam Fluny is from one of the strongest cow families in the herd. The sire Hiprodrome is from the herd Bois Au Be, which belongs to Brittany. The dam, Lindegården Nelly, is assigned to the breeding matador Eden and the french imported cow Ergotte, which comes from the Bournonville herd in northern France. A pedigree with pure top genetics from France.

Roset is pregnant with the french imported bull Smiley, who was bought at the french national show where he was exhibited. Smiley is attributed to the grower GAEC De La Martiniere. Roset is expected to calve at the end of April 2024.

The buyer of Roset gets genetics from the top shelf, french genetics that cannot be acquired through the danish insemination program.
A young cow with a big and exciting future.

Catalog no. 2

Name: Løserupgård Rabella P

Seller: Jakob Sandholm Hansen, Løserupvej 26, 4300 Holbæk

CKR-number: 62437-01743

Birthday: 16.08.2021

200 days weight: 233

365 days weight: 376

S-index: 102

Notes:

Løserupgård Rabella P

Løserupgård Rabella P is a large polled mixed breeding type heifer. The back is broad from withers to loin, the topline is strong - all in all a super harmonious female animal. The exterior is top-class, so good that she is an obvious exhibition subject. She is bred from the bull Risvang Nicholas P, who as a young bull achieved top price at the auction in 2018.

The dam Løserupgård Kursen is assigned to the french insemination bull Vetiver MN, which in France is known for breeding females of exceptional quality.

Rabella P is pregnant with Østergård Paco (rated with 93 points). Paco is after the french imported bull Mamouth. The heifer is expected to calf on October 15th 2024.

The buyer of Rabella P gets a top heifer, which will certainly grow into a large polled cow with a strong exterior. In addition, the heifer is from an organic herd.

Catalog no. 3

Name: Ørnebjerggård Smiley

Seller: Jacob Kjærsgaard, Bakkedraget 19, 4450 Jyderup

CKR-number: 99299-00082

Birthday: 13.12.2021

200 days weight: 246 kg

365 days weight: 445 kg

S-index: 107

Notes:

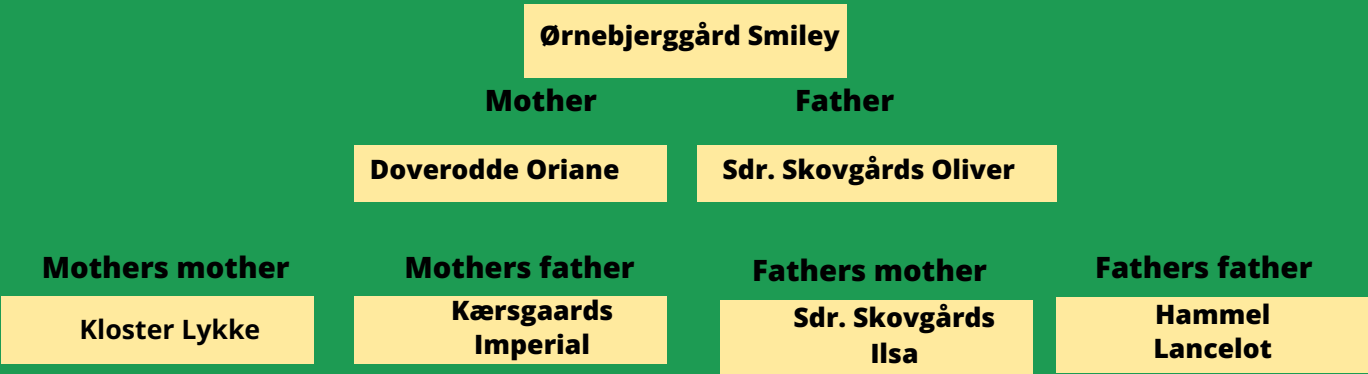

Ørnebjerggård Smiley

Ørnebjerggård Smiley is a large pregnant heifer, which in terms of exterior is at the very top and with a lovely light colour.

The limbs are fine and well placed, there is good depth in the body and she has a correctly well-formed pelvis. The meat in the back is really good, and all in all, Smiley is a very attractive heifer with exhibition potential. Smiley has already been exhibited at Roskilde Animal Show 2023 with fine results.

On the father's side, there are genetics from the Hammel-Kjeldgård herds. The mother Doverodde Oriane was acquired in 2019 at the association's breeding stock auction. Smiley has been found pregnant with the french insemination bull Red P MN.

The buyer of Smiley gets a female animal with lots of potential, pregnant by a new polled bull from which we now see the first, extremely promising, offspring. She is expected to calve in early July 2024.

Catalog no. 4

Name: Lisentorp Rie

Seller: Rasmus Rasmussen, Borrevej 13, 6840 Oksbøl

CKR-number: 31234-01143

Birthday: 07.11.2020

200 days weight: 285 kg

365 days weight: 470 kg

S-index: 105

Notes:

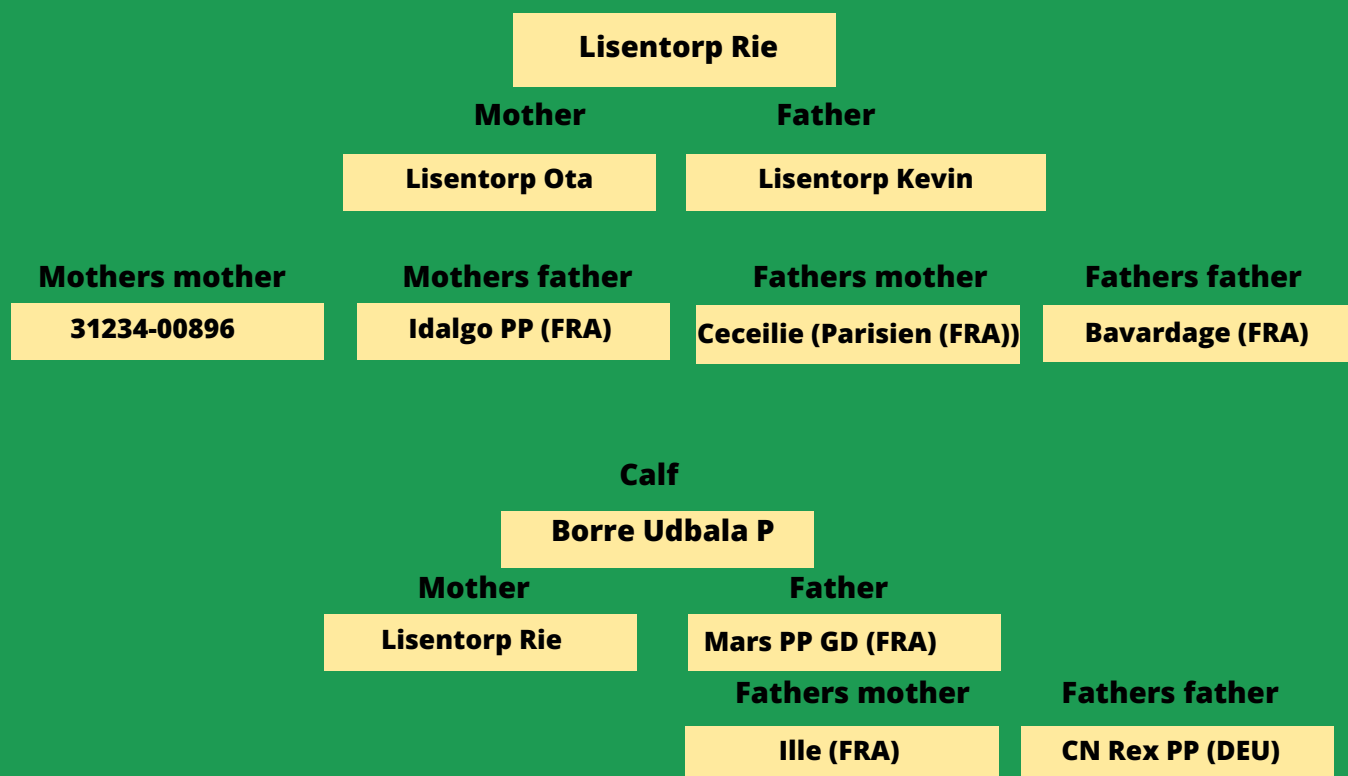

Lisentorp Rie

Lisentorp Rie is a young elegant horned cow with her 1st calf at the side - a polled heifer calf of the french insemination bull Mars PP.

Rie is a really nice example of a mix type limousine cow. She is very well-footed, with nice, well-shaped limbs. A very well-formed cross, good topline and fine meat in the right places.

The lineage is good, where the mother of Rie is a very large-framed cow, after the french bull Idalgo. Rie has in her genes on both the mother's and father's side, individuals who have proven great potential in breeding. Rie is also an individual with exhibition potential.

A lovely cow with an exciting polled heifer calf from November 2023. It is also expected that the cow will be pregnant on auction day. Here is the opportunity to acquire a breeding set for the future.

Catalog no. 5

Name: Nordbygaardens Theodosia

Seller: Flemming Pedersen, Sellerupvej 30, 7080 Børkop

CKR-number: 120772-00054

Birthday: 21.09.2022

200 days weight: 294 kg

365 days weight: 420 kg

S-index: 108

Notes:

Nordbygaardens Theodosia

Nordbygården's Theodosia PP is a homozygous polled heifer, with a breeding-wise very promising genomic test.

She has test results on the female characteristics that make such a homozygous polled heifer, with french descent, breeding-wise interesting. She has a good size, the back is long and the topline is strong. A very appealing heifer, with exciting breeding potential.

She is bred from the french insemination bull Lungo PP, whose lineage is known for birth characteristics that make him suitable for heifers. The mother Rosa P is assigned to another french insemination bull Engy. Here it is worth noting that he has done exceptionally well in Denmark, both with female and males. These have done well both at shows and as production animals, of which Rosa P is a good example.

The buyer of Theodosia PP gets a homozygous polled female, with a unique genomic test that makes her exciting for future polled breeding.

Catalog no. 6

Name: Svendshøj Uffe PP

Seller: Jørgen Østergaard, Svendshøjvej 3, 7830 Vinderup

CKR-number: 57270-00451

Birthday: 06.02.2023

200 days weight: 325 kg

365 days weight:

S-index: 101

Notes:

Svendshøj Uffe PP

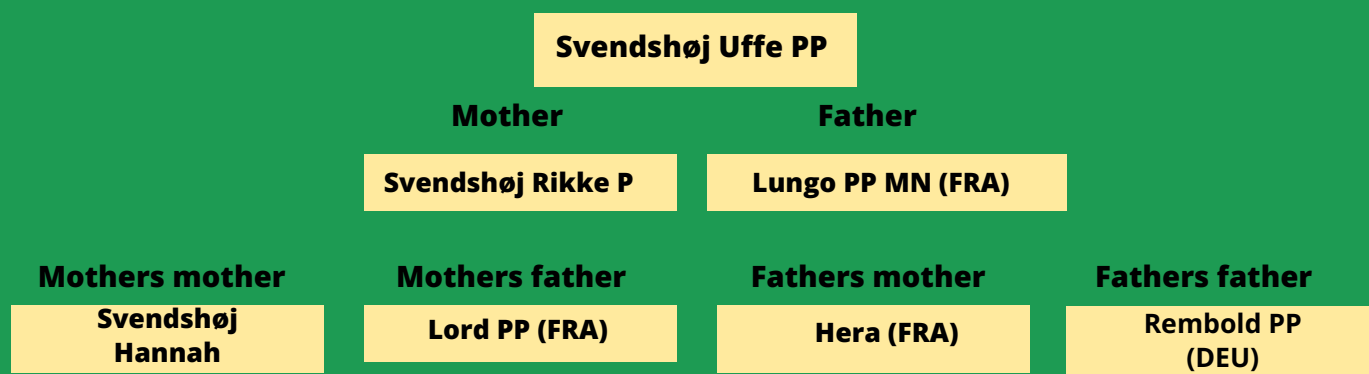

Svendshøj Uffe PP is a homozygous polled bull of mix type.

He is fine-limbed, has a long, strong topline, and very good meat in both back and loin. The cross has good width and the thigh depth is really good. A very appealing young bull.

In the pedigree, we find the french insemination bull Lungo PP as sire, who is known for birth characteristics that make him expectedly suitable for heifers. The dam Rikke P is bred on the french sire Lord PP, which gives size and growth.

Uffe PP is an exciting mix of some of the best french polled genes and safe danish genetics from Thy Sullivan.

The buyer of Uffe PP gets a very exciting young bull that is expected to produce small, easy-born calves.

Catalog no. 7

Name: Bøgely Ulrik PP

Seller: Tommy Jessing, Ålundvej 10, 6650 Brørup

CKR-number: 89593-03916

Birthday: 18.04.2023

200 days weight: 386 kg

365 days weight:

S-index: 101

Notes:

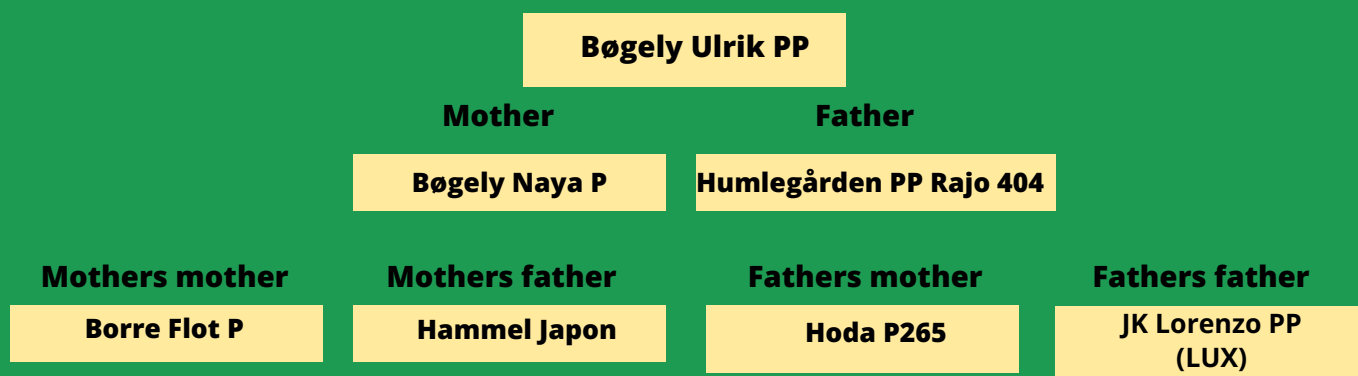

Bøgely Ulrik PP

Bøgely Ulrik PP is a large mix type homozygous polled bull.

He has a good length with a strong topline and good meat in the withers and loins. He has very fleashy deep thighs and nice well-shaped limbs. The bull has a very calm temperament, and a nice light color with the right markings.

The bull's lineage is strong with the sire Rajo PP, who has bred several breeding and show animals, whose offspring was awarded as 3rd best at the National Show 2023. The bull's mother Naya P is an extremely large cow by Hammel Japon, who has bred absolutely fantastic, here in among also many show winners. The mother Borre Flot P has previously bred individuals that have been selected and sold at the elite animal auctions, e.g. Beechly Iris.

Bøgely Ulrik PP is an exciting and complete breeding sire for the future.

Catalog no. 8

Name: Skovlund Ulala P

Seller: Søren L. Paulsen, Skovlundvej 10, 6520 Toftlund

CKR-number: 51431-00875

Birthday: 24.02.2023

200 days weight: 330 kg

365 days weight: 640 kg

S-index: 109

Notes:

Skovlund Ulala P

Skovlund Ulala PP is a homozygous polled bull of mixed meat type. He is fine-limbed, he has a long, strong topline, with very good meat in both the withers and loins. The limbs are fine and well placed, the cross has a good width and the thigh depth is very good. Ulala PP is a mix of all the best from Skovlund Limousine.

The sire, Skovlund Persien P, is assigned to the imported bull Jacadit, who has done exceptionally well in the herd, as well as at the National Show in Herning, where he has obtained an honorary prize. The dam Skovlund Heidi P is of Skovlund Elliot P, who has the french insemination bull Ramses 2 as sire and genetics back to the Aaberg herd. Grandmother Storgård Abondance is of the bull Paradis, which is known for growth, milk and very large animals. The unique thing about Ulala PP is that the polled gene has been bred in 3-4 generations back, after which good horned bulls have contributed to creating animals with very strong exteriors in the herd.

The buyer of Skovlund Ulala PP gets a homozygous polled bull, which has the exterior and meat of the best horned individuals.

Catalog no. 9

Name: Stenbjerg Uno PP

Seller: Jens Thaysen, Stenbjergvej 2A, 8752 Østbirk

CKR-number: 120408-00087

Birthday: 01.01.2023

200 days weight: 400 kg

365 days weight: 709 kg

S-index: 88

Notes:

Stenbjerg Uno PP

Stenbjerg Uno PP is an extraordinary homozygous polled bull of a very large mix type. Despite a completely impressive weight increase, he is fine-limbed and in possession of really well-shaped limbs. Uno PP has an extremely good body, where the back has meat in the right and expensive places. At the same time, he has ideal body depth. His behind is impressive, with deep and extremely fleshy thighs with enormous width at the withers.

Note his achievements, 200 day weight 400 kg and a year weight of 709 kg - it is simply impressive.

Uno PP is of the insemination bull Mars PP GD, which has done very well in breeding, among other things in Germany, France and now also in Denmark. The dam Vinding Pipi P is bred by the insemination bull Engy, who has bred a large number of top animals in Denmark.

Stensbjerg Uno PP is the top of the shell, with a yearly weight of 709 kg, he is homozygous polled, he is rated with 91 P, he has top French genetics - what more could you wish for?

A truly extraordinary homozygous polled bull can be acquired here.

Catalog no. 10

Name: Løserupgård Pondus PP

Seller: Jakob Sandholm Hansen, Løserupgårdvej 26, 4300 Holbæk

CKR-number: 62437-01700

Birthday: 12.09.2020

200 days weight: 343 kg

365 days weight: 605 kg

S-index: 106

Notes:

Løserupgård Pondus PP

Løserupgård Pondus PP is a large homozygous polled mixed breeding type bull, of extraordinary high quality - there are just not many of this kind.

The bull is large and at the same time very elegant, the cross is correct and extremely well proportioned for a homozygous polled bull. The limbs are very fine and well placed. The exterior is top notch. He has a strong topline and is extremely fleshy in both withers and loins.

Pondus PP was exhibited at the national show in 2023, where he received an honorary prize and was there until the very end to become the show's Best Male Animal. Pondus PP is an incredibly exciting bull, bred from Risvang Nichlas P, who was previously sold at the association's auction as one of that year's top bulls. The pedigree also includes the winner of Best Limousine animal, awarded during the world congress in 2012.

The lineage with the french bulls Gragarine and the insemination bull Ultrabou MN, is strongly proven genetics. The mother Løserupgård Levi has Clovis, Ryde Uranos in her lineage, both of which are among the cornerstones of the best polled limousines we have today. In Pondus PP, the buyer gets a fairly complete homozygous polled bull that will be able to add really good genetics and size to the herd, at the same time as polled animals across the board.

In addition, Pondus PP is a safe exhibition subject if the buyer wishes to participate in the summer's animal shows. In addition to the national show, he has also been exhibited at the Roskilde animal show, where he also received ribbons and honorary prizes.

A thoroughly top bull, offered here for sale.

Catalog no. 11

Name: Risvang Tarzan P

Seller: Bent Svenning Jessen, Risgårdvej 1, 6650 Brørup

CKR-number: 43175-00587

Birthday: 29.12.2023

200 days weight: 324 kg

365 days weight: 570 kg

S-index: 106

Notes:

Risvang Tarzan P

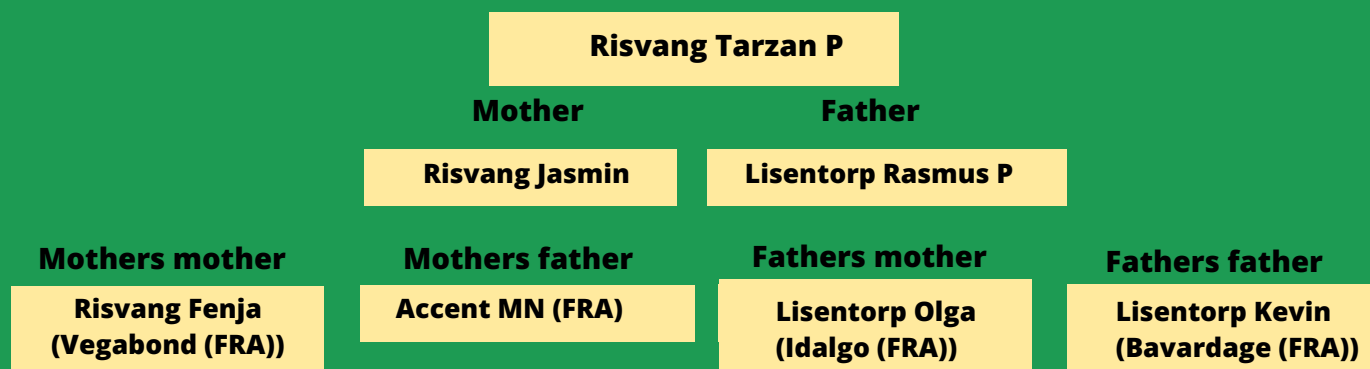

Risvang Tarzan P is a hetrozygotic polled bull of mix type.

The bull is very complete, with a harmonious side piece, good depth and a good topline.

The bull has a good cross with good width and medium depth in the thighs. He is possessed of fine well-proportioned limbs that go well with this elegant bull. Breed characteristics, markings and color are what we want a limousine breeding bull to look like.

The lineage is pure breeding matadors, with a solid mix of french top bulls and danish breeding animals. Bavardage is a french bull who has done extremely well and is the father of the danish insemination bull Lisentorp Kevin. Tarzan P also has the french bulls Accent MN and Vagabond in the family tree, which many know for great female characteristics and good exterior.

Risvang limousine is one of the cornerstones of many years of serious breeding work, originating from the cow Risvang Perle, which also has genes here in this elegant polled bull Risvang Tarzan P.

Catalog no. 12

Name: Krogens Utello

Seller: Simon Thaysen Smidt, Ørbækvej 966, 5863 Ferritslev Fyn

CKR-number: 60387-01187

Birthday: 12.03.2023

200 days weight: 371 kg

365 days weight: 603 kg

S-index: 108

Notes:

Krogens Utello

Krogens Utello is a horned bull, with a very good exterior and an extremely strong and exciting pedigree.

Utello is a mix-type limousine bull with show potential. He has a correct cross, really strong topline with meat in the right places.

The bull has nice well-shaped limbs, is elegant and has a nice light color with the right markings.

Utello's pedigree contains the top among danish show animals and french bulls, with high safe figures for exteriors and female characteristics. Bøgely Mister is a double Interbreed winner at the National Show and the dam Borre Hirse has also managed this title once. Utello is a very exciting bull with an extremely strong pedigree and own characteristics that make him very interesting as a future breeding bull.

At the same time, there are great opportunities at the summers animal shows.
